“Developmental Kinder Discovery” Class limit: 8

This will be an exciting hands-on introduction to our year in developmental kindergarten. Students will work on early reading skills, writing, math, and science. They will get to know their future classmates and learn all about what the next year will bring!

“Getting Ready for Kindergarten” Class limit: 10

This will be a fun-filled class with discovery about all things Kindergarten. Students will practice their math, handwriting and reading skills while learning about science. They will have fun making new friends and learning about CKS.

Kindergarten! ... here I come!

“Peek into First Grade” Class limit: 10

This is an exciting chance to see what first grade is all about. Come learn fun math and reading skills to help you prepare for next year!

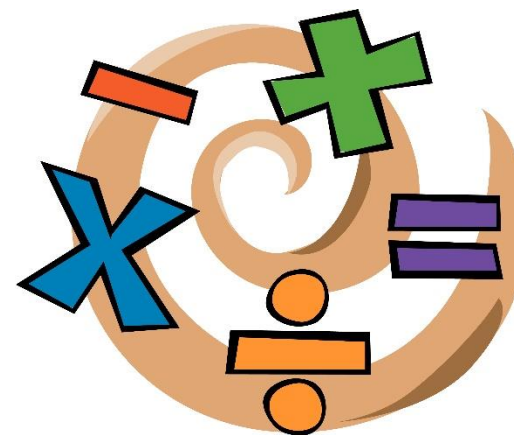

“Chemistry For Kids” entering grades 2nd-4th Class limit: 10

Bubble! Pop! Fizz! Learn about chemical and physical changes, mixtures, polymers, and more by doing hands-on experiments every day.

“Math is Marvelous” entering grades 2nd-4th Class limit: 10

Reinforce your math skills through games, crafts, and even cooking! Activities will be tailored to each student’s grade level. Come see how marvelous math can be!

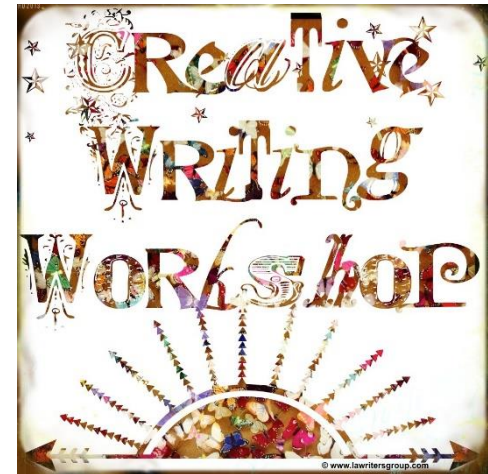

“Math Boot Camp” entering grades 5th-8th Class limit: 10

This class offers strengthening the students’ knowledge of previously learned skills such as integers, fractions, percent and functions. We will be working on some math tricks to ease computations and discover patterns to help with solving word problems. Creative thinking and logical thinking will be enhanced through patterns, puzzles, and number games.

“Creative Writing Workshop” entering grades 5th-8th Class limit: 10

We will have the opportunity to improve our academic writing, as well as explore literary techniques by writing creatively. We will use music, art, nature, and our interests to inspire us! Throughout the session, we will focus on forming well-written sentences with crisp word choice and effective punctuation. This writing workshop will help develop each student’s unique writing voice and help prepare students for English next year.

“Sports Camp” DK-8th grade

Play a variety of sports and games grouped by age. This is a great way to perfect skills for your favorite sport, as well as have fun learning about other sports.
