Community  
Center, Volunteers  
Needed

**IT'S ON! 4K/DK to rising 3rd  
graders won't want to miss this  
back-to-school community-building  
event.**

We are now accepting  
volunteers. This is a great way to  
get involved and meet other

parents in our community. Whether you can volunteer one day or all four days, your help is very much appreciated. Make plans now to join the fun!

**Volunteers can Register Now.**

**NOTE: Space is limited.** This is the only way to guarantee a spot for your child. We will open registration to all Christ the King students and parishioners after our volunteer spots have been filled and their kids have been registered. There is a nursery for volunteers that need it.

Thanks,  
Jen Bryarly

## BEEN EXPOSED TO COVID-19?

Be Informed: Know Your Next Steps

Chart provided by the Texas Medical Association COVID-19 Task Force

If you have trouble breathing or other serious symptoms, contact your physician for immediate medical advice. This chart is intended for the general public, not health care workers.

**COVID-19**  
CORONAVIRUS DISEASE

**YOU'VE BEEN EXPOSED TO COVID-19**

This means you were **within 6 feet** of someone who tested positive (and was contagious\*) for **more than 15 minutes with or without wearing a mask.**

**YOU HAVE SYMPTOMS\*\***

**GET TESTED.** While waiting on your test results, be sure to stay home and away from others.

**YOU DID NOT OR COULD NOT GET TESTED**

**Isolate** and stay home until 10 days have passed since you first got symptoms; 24 hours have passed since you had a fever (without medication), and your symptoms have improved.  
**NOTE:** Anyone who lives with you needs to quarantine for 14 days since their last contact with you.

**YOU GOT TESTED**

**YOU TESTED POSITIVE**

**YOU TESTED NEGATIVE**

**Quarantine** and stay home for 14 days since you were exposed to COVID-19. If you **MUST** go out, wear a mask and stay 6 feet away from anyone who doesn't live with you.

**YOU HAVE NO SYMPTOMS**

**CONSIDER GETTING TESTED.** Quarantine and wait at least 6 to 8 days before you test in order to avoid a possible false negative\*\*\* result. Keep in mind that when testing is in high demand, your results may be delayed by several days.

**YOU DID NOT OR COULD NOT GET TESTED**

**Quarantine** and stay home for 14 days since you were exposed to COVID-19. If you **MUST** go out, wear a mask and stay 6 feet away from anyone who doesn't live with you.

**YOU GET SYMPTOMS**

**STILL NO SYMPTOMS**

**GET TESTED.** While waiting on your test results, be sure to stay home and away from others.

**Complete your 14-day quarantine** starting from the day you were last exposed to COVID-19.

**YOU GOT TESTED**

**YOU TESTED NEGATIVE**

**YOU TESTED POSITIVE**

**YOU DID NOT OR COULD NOT GET TESTED**

**Quarantine** and stay home for 14 days since you were exposed to COVID-19. If you **MUST** go out, wear a mask and stay 6 feet away from anyone who doesn't live with you.

**NOTE:** Anyone who lives with you needs to quarantine for 14 days since their last contact with you.

After your quarantine or isolation is over, you can resume normal activities. But don't forget to wear a mask!

\*People are contagious two days before they started having symptoms and at least 10 days after they stopped having symptoms. People who have no symptoms are considered contagious starting from the day before they got tested, through at least 10 days.  
\*\*Symptoms may include fever or chills, cough, shortness of breath or difficulty breathing, body aches, headache, sore throat, and loss of taste.  
\*\*\*A false negative test result is when the test result is negative when you actually are infected with COVID-19. This may happen when you test too soon after your exposure, and there is not enough virus in your system to be detected. Avoid a potential false negative by waiting approximately 6-8 days from when you were last exposed before you retest.  
This document provides general information related to exposure to the COVID-19 virus. It is not medical advice and does not substitute for the advice of your physician or other health care professional. Consulting your assigned physician is recommended when faced with health issues to obtain specific medical advice taking into consideration your medical condition.
