CKS Spiritual

The Giving Tree is a yearly tradition to show our appreciation to the wonderful teachers and staff at Christ the King School. Classes are discouraged from giving collective or individual gifts to teachers at Christmas. The best way to give is through the Giving Tree

- This is a voluntary program.
- All donations, any amount, are greatly appreciated.
- The proceeds are divided among teachers, aides and staff including the nurse, librarian, administrators and the maintenance crew.
- Information about your contribution will remain confidential; names and amounts will not be disclosed.
- Donations are tax deductible.

WAYS TO GIVE:

Online: Go to www.CKS.org and click the Giving Tree graphic on the homepage.
Check: Online donations are encouraged but if you'd prefer a check, make it out to CKS with "Giving Tree" in the notes line.

THANK YOU FOR YOUR GENEROSITY!

Jen Bryarly - Giving Tree Chair

Amounts over \$250 will receive acknowledgement receipt letter in January. Receipt upon request for all other donors.

YOU HAVE SYMPTOMS**

GET TESTED. While waiting on your test results, be sure to stay home and away from others.

YOU DID NOT OR COULD NOT GET TESTED

ISOLATE and stay home until 10 days have passed since you first got symptoms; 24 hours have passed since you had a fever (without medication); and your symptoms have improved.
NOTE: Anyone who lives with you needs to quarantine for 14 days since their last contact with you.

YOU HAVE NO SYMPTOMS

CONSIDER GETTING TESTED. Quarantine and wait at least 6 to 8 days before you test in order to avoid a possible false negative*** result. Keep in mind that when testing is in high demand, your results may be delayed by several days.

YOU DID NOT OR COULD NOT GET TESTED

After your quarantine or isolation is over, you can resume normal activities. But don't forget to wear a mask!

*People are contagious two days before they start having symptoms and at least 10 days after the onset of their symptoms. People who have no symptoms are considered contagious starting from the day before they are tested, through at least 10 days.
**Symptoms may include fever or chills, cough, shortness of breath, difficulty breathing, loss of voice, headache, sore throat, and other symptoms.
***A false negative test result is when the test result says negative when you actually are infected with COVID-19. This may happen when the test is done after your recovery, and there is not enough virus in your system to be detected. Avoid a potential false negative by waiting approximately 6-8 days from when you were first exposed before you get tested.
This document provides general information related to exposure to the COVID-19 virus. It is not medical advice and does not substitute for the advice of your physician or other health care professional. Consulting your personal physician to recommend specific medical health care is the most specific medical advice being given to you by your medical professional.
